\$325,000

3 Bedrooms | 2 Bathrooms | 1,806 Sqft

Wow! What a great home! You will love this rehabbed home on almost 3/4 acre, just up the street from the river! The living room is huge and the big family room could be a great first floor bedroom or an office or whatever you want! The kitchen has a big pantry and a spacious eating area. There's one bedroom on the first floor and 2 upstairs, with full baths on both levels! There's even a bright and clean basement with a rec room, storage/exercise room and utility room with washer and dryer! There's a beautiful and spacious new deck where you can relax your days away. AND the 2 1/2 car garage has a lot more space than normal, perfect for lots of tools and toys! There's plenty of space in the yard to play or maybe to build another shed? This is just a GREAT, solid home on a wonderful lot, in a nice, quiet area.
